## EXPERIENCE

---

### Business Analyst Intern - Accenture

Jun 2024 – Sep 2024

- Conducted 5+ requirement workshops with MOF agency stakeholders, translating business needs into design specs.
- Built DoR documents and user stories, enabling Agile team to cut sprint rework by ~15%.
- Partnered with stakeholders to gather reporting requirements, creating visual prototypes on Excel that improved clarity and alignment on expected outputs in the new platform for their Finance functions.
- Conducted UAT with client users, guiding them through 20+ test cases to confirm module usability and functionality, reducing post-launch defects.

### Technology Analyst Intern - Accenture

Jul 2023 – Dec 2023

- Wrote 50+ API & UI test cases, ensuring smooth integration with minimal defects.
- Created 10+ Figma screens for UI/UX flows, accelerating client approvals on design iterations.
- Detected database-ERD mismatches during UAT, preventing high-impact pre-rollout issues.
- Built familiarity with Jira and Confluence to manage project deliverables, enhancing visibility and communication between technical and business teams.

*Earlier experiences at Alchemist (barista) and Mott MacDonald Singapore (HR admin support), where I developed strong interpersonal, multitasking, and administrative skills in both service and corporate settings*
